# Design meets Technology

---

CONTI+ sanitary solutions can be described in these three simple words. Our products enhance sanitary environments – in both private homes and public buildings – through the employment of high quality materials, elegant design and innovative technology.

Materials with exceptional sensory qualities cast in attractive shapes, combined with technically sophisticated functions, make CONTI+ perfect for the job.

The CONTI+ product portfolio comprises a wide range of sanitary fittings such as single and multi wash basins, wash basin faucets, mirrors, accessories, odor traps and angle valves.

Clean lines and extraordinary combinations of materials such as concrete with stainless steel or chrome are a delight to the senses. The cool appearance of concrete belies its surprisingly soft and silky feel, whilst the illuminated control

buttons and raindrop water jet of the Senso faucet are pleasing to the eye.

Operators of semi-public and public rest rooms appreciate technically innovative iqua products. They meet the needs of modern washrooms and WCs, with environmentally friendly water-saving performance, touch-free operation and outstanding hygiene functions. Unique service concepts make electronic faucets as reliable to use as mechanical single lever mixers. Programmable hygienic rinse and thermal disinfection ensure safety, hygiene and potable water quality.

Perfectly harmonized in terms of their form and function, CONTI+ complete solutions are tailored to the specific requirements of the sanitary sector. The outstanding design and technical sophistication of CONTI+ products have been affirmed by a whole raft of awards.

Awards for HighTech+iqua products

reddot design award

# Guest bathroom and guest WC

## Maximum comfort and freedom of movement in the smallest room

### The challenge

A separate guest WC is one of the essential elements of sophisticated interior design. Components with perfectly harmonized design and functionality create an aesthetically pleasing appearance that expresses the host's respect for the guests.

### Intelligent wash basin solutions

Wash basins have a major impact on the overall look of guest WCs and therefore also function as architectural design elements. Reduced product dimensions allow maximum freedom of movement even in small rooms, while compact shapes with generously proportioned basins make the products comfortable to use.

### High quality materials

Perfectly matched in terms of their design and function, CONTI+ solutions ensure a harmonious overall image for the guest WC. From wash basins and faucets to bathroom accessories, the clean lines and contemporary shapes are consistently maintained throughout. The details are not overlooked either, with the attractive design extending to the odor traps and angle valves. High quality materials such as concrete, StoneTec, stainless steel, glass and ceramic turn guest WC fittings into something very special.

### Comfort in even the smallest space

Attractively designed faucets with intelligent sensors and well-thought-out LED lighting concepts make hand washing a highly pleasurable experience. A perfect example of this can be found in the electronic Senso wash basin faucet with raindrop jet.

**Maximum comfort and freedom of movement in the smallest room**

Guest bathroom / guest WC

# Semi-public and commercial premises

## Design meets sustainability and resource conservation

### The challenge

Esthetically pleasing washrooms and WCs are an important consideration for premises with semi-public access. A successful marriage of form and function is a must and this poses a challenge for manufacturers. CONTI+ solutions rise to this challenge admirably, as can be attested by the numerous completed projects and awards from well known institutions.

### Comprehensive range

Washing areas that exemplify the perfect union of design and function are the hallmark of CONTI+ – from double wash basins to multi wash basins with hygienic back rim, from single lever mixers to electronic faucets with LED control buttons, and from washing areas to urinals, where reliable, water-saving, touch-free, and hygienic flushing is also required. CONTI+ solutions ensure that washing areas and WCs stay clean and always leave a well-maintained and professional impression on your guests.

### Fittings

For a harmonious overall look when choosing sanitary fittings, it is important to have the right accessories. Soap dispensers, paper towel dispensers and toilet brush sets in similar materials and styles can be combined to add the finishing touch to a designer CONTI+ sanitary environment.

### Design and beauty of form

Hotels / restaurants / offices / administrative buildings

# Public rest rooms

## Robust and fail-safe for many years

### The challenge

In busy public washrooms, sanitary fittings need to be especially robust and durable. Water wastage and lack of hygiene need to be curbed. Maintenance and running costs must be kept low.

### Technical sanitary solutions

CONTI+ sanitary solutions help improve hygiene for users with touch-free wash basin faucets and urinal valves. We all know the feeling of not wanting to touch anything in public WCs. As an added bonus, the electronic faucets save water and energy, because water only flows when it is actually needed. StoneTec wash basins with hygienic back rim give the operator the confidence of knowing that the whole washing area can easily be kept in a clean condition. Stainless steel accessories around the wash basin and WC are robust to ensure that they remain serviceable for the next user even if they were treated roughly by the previous one.

### Portfolio

A comprehensive range for busy washing areas:

- Wash basins, multi wash basins
- Touch-free valves/faucets with hygienic rinse function
- Stainless steel designer accessories: soap dispensers, paper towel dispensers, toilet brush sets, etc.
- Flushing controls for all common urinals
- Vandal-proof showers and shower panels (optionally with thermal disinfection)

### Reliability in public areas

Airports / service areas / railroad stations /  
administration buildings / military buildings /  
schools / universities

# Hygiene and health

## Ensuring hygiene and potable water

### The challenge

The sanitary fittings of hygienically sensitive washing areas in, for example, hospitals, care homes, doctors' offices, and food production companies are subject to particularly stringent requirements: cleanliness of washing areas, easy cleaning, regular hygienic rinse and thermal disinfection. Touch-free operation is particularly beneficial in these applications because it helps to prevent the transmission of germs and bacteria.

### Intelligent faucets

Touch-free IR sensors that detect user proximity and control the water flow allow hygienic operation of iqua faucets. Practical additional functions such as regular automatic hygienic rinse, adjustment of the follow-up time, or a "Pause" function for uninterrupted cleaning, ensure maximum comfort and hygiene in the washing area. iqua service monitor compatibility allows wireless transfer of recorded data.

### Hygiene functions

The design of the faucets – with a small vertical water column in the unpressurized area – guarantees that absolutely no water remains inside the faucet in regular use. The lead free, bacteria resistant pipework is fully compliant with drinking water standards. Thermal disinfection prevents the growth of germs and legionella bacteria in the water pipes.

### Hygiene in the healthcare sector

Doctors' surgeries / hospitals / care facilities / retirement homes

## Guest bathroom / guest WC

---

## Voilà! Le chic Petit guest wash basin

---

A glass fiber reinforced concrete countertop forms the basis for a luxurious set of fittings for guest bathrooms or guest WCs. This harmonious combination of materials contrasts cool stainless steel with the silky soft feel of concrete. The Petit countertop provides a stylish base for the Marathon 3 faucet above the satin finish stainless steel Pollux countertop basin, offering generous space for hand washing. Underneath the wash basin, round angle valves and the designer odor trap complete the ensemble. The WC accessories set in brushed stainless steel provide the finishing touch for the guest WC.

## Koncetta StoneTec for guest WCs

---

Linear forms define the overall look of the Koncetta wash basin, especially when combined with the Marathon faucet with its geometric lines and the Sinus range of bathroom accessories. The Koncetta offers a generous area for comfortable hand washing in even the smallest of spaces. The high gloss StoneTec surface is particularly durable and easy to clean.

## Pollux! The "floating" wash basin

---

For elegance, even in the smallest of spaces, the Pollux self-supporting wash basin is the perfect choice. Its generously sized bowl offers plenty of room for hand washing. The high gloss polished stainless steel and high gloss chrome finish to all the parts, from the odor trap to the faucet, make washing your hands a luxurious pleasure. The touch-free operation of the iqua ultra wall mounted faucet guarantees that the washing area remains hygienically clean and sparkling.

## Put some Swing in your guest bathroom

---

With the Swing wash basin as the centerpiece, bathed in warm white LED lighting from the HT mirror and surrounded by Senso accessories, a really stylish guest bathroom is guaranteed. From the designer odor trap to the illuminated raindrop jet of the Senso faucet, every detail is perfect. This elegant ensemble is rounded off by a towel rail, soap dish and WC accessories.

## Semi-public rest room

---

## Pollux! The double wash basin in chrome, stainless steel, glass or ceramic

---

The self-supporting odor trap, in stainless steel or chrome, appears in a wide range of design options. A choice of basins in different colors and sizes is also available – from a wash basin with transparent glass bowl that appears almost unsupported, to a polished stainless steel basin or a white ceramic bowl. The HT mirror with its warm white LED lighting sets off these luxurious wash basins beautifully. The Marathon concealed combination set with paper towel dispenser and waste bin, keep the washing area tidy.

## Swing double wash basin for offices

---

Dark glass on the urinal valves and wash basin faucets contrasts with the Alpine white Swing StoneTec double wash basin. Aesthetically attractive and technically innovative, these water saving products also help to conserve resources. The touch-free iqua ultra faucet only supplies water when the user places their hands under the spout. A solar module supplies the energy required for this.

## Let's twist with Bolero StoneTec

---

The HighTech Twist makes an attractive light show on the Bolero wash basin. Complementary round forms and an innovative touch-free faucet operating concept are making a splash in semi-public rest rooms. An infrared sensor above the spout ensures reliable detection right along the water jet. Color LEDs indicate the temperature of the water. The water jet is illuminated and the control unit regulates the temperature. A paper towel dispenser in the wall and a waste bin under the wash basin keep the area tidy.

## Samurai for semi-public rest rooms

---

Dark gray concrete meets brushed stainless steel. The Samurai console appears robust yet delicate with its bowl basins and Marathon 3 brushed stainless steel single lever mixers. Black glass in a chrome frame conceals intelligent electronics that release precisely the right amount of water needed to flush the urinal.

## Public and commercial rest room

---

## StoneTec mineral material

---

StoneTec is a material used for high spec sanitary architecture. It is high quality, a uniform color throughout, and its outstanding stability makes it ideal for heavily used public rest rooms. Operators appreciate its nonporous, glossy surface which is hard as stone and easy to clean. Users enjoy its sensuous touch.

StoneTec wash basins are made of pure minerals and clear resins. This creates a material that allows flexible and innovative design. The wash basins are available in many different shapes and sizes, and can also be custom made.

## StoneTec-PRO mineral material

---

StoneTec-PRO is a contemporary mineral material for use in busy public rest rooms. With a uniform color throughout, it looks and feels like stone and is just as tough. StoneTec-PRO has a semi gloss surface finish, it is easy to clean and impressively strong.

The StoneTec-PRO selection ranges from single and double wash basins to wash basins for recesses with up to three basins and a practical hygienic back rim. The wash basins for recesses can be cut to the right size on site by a specialist, individually adapted to customers requirements. Whether as a custom-build version or standard size, many different shapes and sizes provide a wide range of washbasins for every purpose and operation site.

The Swing StoneTec wash basin is characterized by straight lines and a slim shape. It is ideal for semi-public and public rest rooms as double or

multi wash basins, or as a single wash basin for private bathrooms. Equally slim and with a round basin, the Bolero forms the ideal base for

wash basin faucets with organic forms. The hygienic back rim of the wash basins for recesses ensures a hygienic seal.

## iqua maxx on Bolero StoneTec

---

The easy to clean StoneTec wash basin with practical hygienic back rim forms the ideal basis for a multiple row of basins for recesses. The iqua maxx faucet and the soap dispenser and hand dryer integrated in the wash basin add the finishing touches. The waterless urinal and touch-free wash basin faucets save energy and resources.

## Sanitary solutions for public and commercial rest rooms

---

CONTI+ sanitary solutions are your first choice when it comes to robustness and hygiene – from the iqua ultra wash basin faucet and the iqua IQ concealed urinal valve U18 to the HighTech Marathon toilet roll holder for jumbo rolls. Brushed stainless steel and concealed anti-theft fixings ensure protection against vandalism. The touch-free operation of the faucets and the hygienic back rim of the StoneTec wash basins for recesses make them hygienic to use and easy to clean. The Marathon stainless steel soap dispensers ensure economical consumption as well as being easy to maintain and touch-free.

## Urinals and WC accessories

---

iqua expertise comes into play in the men's room too, with urinal valves that use less water and even urinals that are completely waterless – all with hygienic, touch-free operation. No matter whether in high grade stainless steel or chrome plated brass, these HighTech ranges of accessories inspire confidence. Security is ensured by invisible anti-theft mounting.

## Touch-free wash basin faucets

---

Intelligent sensors detect user proximity and control the water flow from the faucet automatically and reliably. The touch-free operation saves up to 70 % water and considerably reduces operating costs for this valuable resource as well as the energy required for domestic hot water heating. Robustness, durability, and functional reliability play a crucial role in keeping maintenance costs low.

## Showers and shower panels

---

iqua shower fittings and panels offer excellent hygiene performance and comply with drinking water regulations. The electronically controlled operation of the fittings makes them particularly economical because no water is wasted. The anti-scalding feature along with auto-thermic protection make them safe to use. The showers are hygienically safe thanks to their individually adjustable hygienic rinse function at 24, 48, or 72 hour intervals and the option of thermal disinfection.

## Hygiene and health

---

## Hygiene in doctors' offices and hospitals

---

Hygiene is a must in medical environments such as dentists' offices or hospitals. iqua products – from wash basin faucets through wall mounted faucets to shower fittings – are ideal for these application areas. These faucets and fittings all feature touch-free operation. This method is hygienic, can prevent the transmission of germs and bacteria, and is also economical and totally reliable. Faucets are available for any wash basin, with a range different outlet heights and distances from the wall.

# Product overview

steel, spout projection: 172 mm, 198 mm

## Showers and shower panels

---

### 120.640.11

iqua lino shower fitting (concealed) DV30/DV30B, touch-free ON/OFF function, chrome optionally with thermal disinfection

### 120.641.11

iqua lino shower fitting (concealed) DV35/DV35B, electronic ON/OFF function, chrome optionally with thermal disinfection

### 110.405.11

iqua lino shower fitting D35, with electronic ON/OFF button, chrome with thermostat

### 100.641.00

iqua ShowerMaster P35PL ProLife, electronic ON/OFF button, stainless steel, temperature selectable with thermostat

### 100.500.00

iqua ShowerMaster P10/P20/P30/P30B, touch-free ON/OFF function, stainless steel optionally with thermal disinfection

### 100.501.00

iqua ShowerMaster P15/P25/P35/P35B, electronic ON/OFF button, stainless steel, optionally with thermal disinfection

## Urinal valves

---

### **260.000.71**

iqua ultra urinal valve (concealed) U18,  
with IR sensor, black glass/chrome  
black glass front plate

### **260.000.31**

iqua ultra urinal valve (concealed) U18,  
with IR sensor, white glass/chrome  
white glass front plate

### **201.000.01**

iqua IQ urinal valve (concealed) U28,  
with IR sensor, stainless steel/chrome  
strong stainless steel front plate

### **220.108.11**

iqua lino exposed urinal flush valve U60,  
with IR sensor, solar, chrome  
for easy wall mounting without electrical  
wiring, solar or battery operation

### **220.000.43**

iqua lino urinal valve (concealed) U10,  
with IR sensor  
matt chrome front plate/white window

## Urinal valve conversion kits / waterless urinals / siphon regulators

---

### **220.200.43**

iqua lino urinal valve U55, with IR sensor,  
conversion kit for concealed flush valve  
matt chrome front plate/white window

### **241.001.33**

iqua nowa urinal ceramic (waterless) US32,  
white, with iqua membrane valve  
for reduction of flush water consumption  
to 0 liters

### **230.010.00 / 230.013.00**

iqua urinal flush control S10, siphon regulator  
(final installation set)  
flush volumes 2 - 8 l/min  
flush volumes 1 - 4 l/min

## Mirrors

---

### **HT1-SPRL,00**

HT-1 mirror with vertical LED lighting,  
warm white  
dimensions: 500 x 800 x 35 mm  
LED lighting optionally on left or right

### **HT1-SPO,00**

HT-1 mirror with horizontal LED lighting,  
warm white  
dimensions: 500 x 800 x 35 mm

### **HT1-Div,00**

HT-1 mirror with LED lighting on both sides,  
warm white, available with customized  
dimensions  
width: 400 - 2500 mm / height: 800 mm

**7406951**

CONWASH 500 x 400 mirror  
highly polished stainless-steel  
dimensions: 487,5 x 387,5 mm

**7406961**

CONWASH 600 x 400 mirror  
highly polished stainless-steel  
dimensions: 587,5 x 387,5 mm

**7406971**

CONWASH 600 x 500 mirror  
highly polished stainless-steel  
dimensions: 587,5 x 487,5 mm

## Bathroom accessories – soap dispensers

---

**120.960.00**

Marathon wall soap dispenser with IR sensor, 1000 ml, brushed stainless steel for wall mounting

**MA2-ASW,27 / MA2-ASW,16**

Marathon wall soap dispenser 150 ml, brushed stainless steel / chrome for wall mounting

**4250300**

CONWASH W1 wall soap dispenser, 500 ml, Solid brass, chrome plated spout projection: 72 mm

**MA2-AST,27 / MA2-AST,16**

Marathon wash basin soap dispenser, 150 ml, brushed stainless steel / chrome for wall mounting

brushed stainless steel / chrome  
spout projection: 149 mm

#### **4250100**

CONWASH SR1 table soap-dispenser,  
500 ml, chrome  
spout projection: 94 mm

#### **4250110**

CONWASH SR2 table soap-dispenser,  
500 ml, chrome  
spout projection: 92 mm

## Odor traps and angle valves

---

### **PO30,16**

Pollux designer bottle trap 1 1/4", chrome

### **HT32,27 / HT32,16**

HT bottle trap 1 1/4"  
brushed stainless steel / chrome

### **PO1-N,16 / PO1-N,27**

Pollux – self-supporting odor trap with in-wall mounting box and special drain without backup function,  
chrome / brushed stainless steel

### **HTEV,16**

HT angle valve with push-on rosette, chrome  
1/2" connection

### **MA2-10,27 / MA2-10,16**

Marathon angle valve with push-on rosette,  
stainless steel / chrome  
1/2" connection

## Sanitary equipment - CONWASH Baby diaper-changing table

---

### **7406070**

CONWASH baby diaper-changing table,

Wall mounting

Dimensions (W / H / D): 559 x 914 x 127 mm

## Bathroom accessories – built-in

---

### **MA2-AUP1,27**

Marathon concealed sanitary combination with paper towel dispenser and waste bin, lockable, brushed stainless steel

### **MA2-AUP2,27**

Marathon paper towel dispenser for wall recessing, lockable, brushed stainless steel

### **MA2-AUP3,27**

Marathon paper waste bin for wall recessing, lockable, brushed stainless steel

### **MA2-AUP4,27**

Marathon hygiene flush combination for wall recessing, lockable, brushed stainless steel

### **MA2-A100T,27 / MA2-A100F,27**

Marathon paper towel dispenser for wash basin installation, brushed stainless steel for vertical and horizontal wash basin installation

### **MA2-A106,27 / MA2-A106,30**

Marathon disposal ring, brushed stainless steel / polished stainless steel, for installation in wash basin top  
outer diameter: 150 mm, height: 120 mm

## Bathroom accessories – wall mounted

---

### **MA2-A100,27**

Marathon paper towel dispenser for wall mounting, brushed stainless steel

### **MA2-A104,27**

Marathon hygiene bin for wall mounting, lockable, brushed stainless steel

### **MA2-A104L,27**

Marathon hygienic bin for wall-mounting, with container, lockable, stainless-steel  
Dimensions: 308 x 305 x 119 mm

### **MA2-A104K,27**

Marathon hygienic bin with integrated hygienic bag dispenser, flap lid, stainless-steel,  
Dimensions: 308 x 305 x 124 mm

### **MA2-A101,27**

Marathon paper waste bin for wall mounting, lockable, brushed stainless steel

### **MA2-A101K,27**

Marathon paper waste bin for wall mounting, lockable, brushed stainless steel

## Bathroom accessories – wall mounted

---

### **MA2-A015,27**

Marathon toilet paper dispenser for jumbo rolls, lockable, brushed stainless steel  
dimensions: 300 x 300 x 122 mm

### **7406311**

CONWASH 2 AP toilet paper roll holder,  
concealed wall mounting for 2 toilet rolls,  
brushed stainless steel  
dimensions: 150 x 320 x 145,5 mm

### **MA2-A103,27**

Marathon sanitary bag dispenser for wall mounting, lockable, brushed stainless steel  
dimensions: 308 x 185 x 62 mm

### **100.950.11**

iqua Hand-dryer HT180, with IR-senso,  
touchless function, sturdy metal housing,  
chrome, 230V; 2300 Watt

### **120.950.00**

Marathon hand dryer HT220 with IR sensor,  
brushed stainless steel  
230 volts, 2,300 watts

### **MA2-A103K,27**

Marathon sanitary bag dispenser for wall mounting, brushed stainless steel  
dimensions: 130 x 92 x 25 mm

## Bathroom accessories – floorstanding

---

### **MA2-A108,18 / MA2-A108,27**

Marathon mesh basket, 25 liter capacity,  
white coated / coated stainless steel  
dimensions: 350 x 320 x 220 mm

### **7406071**

CONWASH Waste bin, wall mounted / free  
standing, foldable, 54 liters, stainless steel  
wire polished  
dimensions: 330 x 640 x 260 mm

### **MA2-A108G,18**

Marathon mesh basket, 50 liter capacity,  
white coated steel  
dimensions: 640 x 330 x 255 mm

### **MA2-A100V,27 / MA2-A100VA,27**

Marathon paper towel dispenser for  
installation behind the mirror, filling from  
top or bottom by pulling out the dispenser  
(MA2-100VA,27), stainless steel

### **MA2-A108GB,27**

Marathon cover for mesh basket,  
brushed stainless steel  
cover for MA2-A108G,18

### **MA2-A101G,27**

Marathon floorstanding wastepaper bin, with  
rubber pads as feet, brushed stainless steel  
dimensions: 640 x 400 x 250 mm

## Senso Exclusive bathroom accessories

---

Senso Exclusive in high gloss chrome or satin finish stainless steel as timelessly elegant complement to Senso faucets. Almost invisible with theft-proof mountings. Chrome version can be combined and extended with Senso Style.

### **SE-A002,16 / SE-A002,27**

Senso Exclusive WC toilet brush set for wall mounting, chrome holder / brushed stainless steel, theft-proof fixing

### **SE-A003,16 / SE-A003,27**

Senso Exclusive paper roll holder for wall mounting, chrome / brushed stainless steel, theft-proof fixing

# Design meets Technology

---

This maxim sums up the essence of CONTI+ sanitary solutions – pioneering products that break new ground in terms of form, materials, and technological development; environmentally friendly water saving products that not only enhance the comfort of users, but also benefit the environment; many years of experience systematically and continuously harnessed for the management of water savings in the sanitary sector.

We set ourselves very high standards. Attractive design, functional reliability, and easy operation and installation are essential requirements.

It is no wonder that CONTI+ sanitary solutions lead the way in the electronic sanitary fittings and solutions segment.

A talent for innovation, extremely high quality standards, and a reliable instinct for the needs of the market make CONTI+ products trend setters with excellent customer benefits.
