

RetailSystem

Novus more space system

novus[®]

Innovations on track: With expertise in individually tailored retail solutions.

Since the company was founded in 1949, the Novus brand has been synonymous with:

- innovative technology,
- sophisticated „German Engineering“,
- modular systems
- and high quality.

These attributes provide the basis for the modular Novus RetailSystem as the key to creating secure and appealing POS solutions that are tailored to your needs with its versatile, flexible elements. It is precisely this individuality that is needed at the checkout with its many and varied demands.

Our space-saving flexible products integrate perfectly into the shop's design and enhance user friendliness at the checkout with cleverly designed details.

Every day our engineers are busy working on new solutions at the Research and Development Centre at company headquarters in Lingen, Germany. We use advanced technology in our company's own production facilities to ensure the high quality of our products.

Let our expertise benefit your business:
We can design and produce solutions for you that are tailored in every detail to your specific requirements.

The emco Group's Research and Development Centre in Lingen, Germany

One system – multi-purpose use

The modular system for
individual solutions at the POS.

Knowing what's important to you: our RetailSystem and its components.

Screw-on or screw-through mounting for guiding cables through the table.

High-quality silver- or black anodised aluminium profiles. Cables are routed through the inside of the column where they are concealed by practical brush seals.

Infinitely variable in height, the arms let you position terminals, keyboards and monitors wherever you choose.

Practical cable holders provide secure, neatly organised cable management on the arm.

The right system for any need.

We realise your project:

For individual tailor-made solutions and developments please contact us at Phone: +49 (0) 591-9140 415 or e-Mail: info@novus-retailsystem.com

Mobile service perfectly integrated at the Point of Sale: NOVUS tablet holders.

The TabletCase, TabletSafe and TabletFix expand the Novus RetailSystem with lots of practical and flexible tablet holders. Product and promotional information presented in a customer-friendly way as well as selling through mobile devices are the mark of modern customer communication and sales processes.

Whether at the point of sale or in the showroom, whether on the wall or on the counter, the versatile mounting options now provide a place for any tablet.

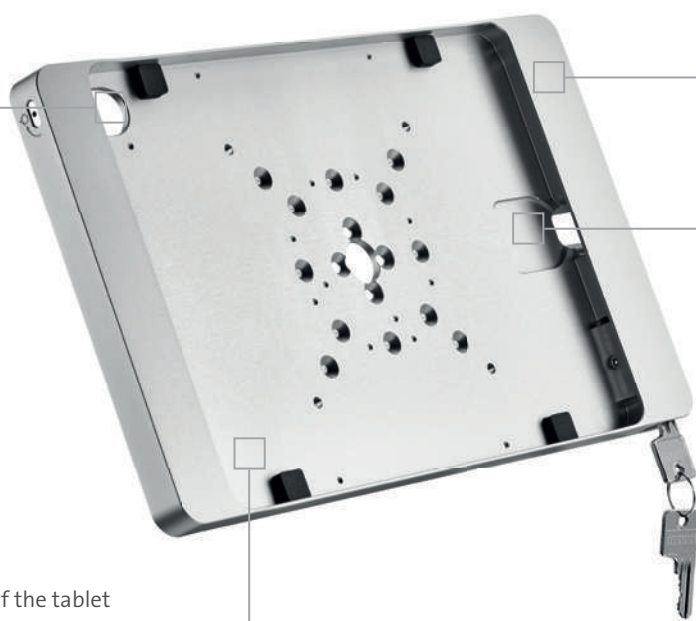

NOVUS TabletCase

Camera use possible thanks to a recess for camera aperture

Premium tablet holder with minimalistic design

Exposed home button for full functionality

Insertion of the tablet in seconds

Rapid insertion of the tablet and secure theft protection thanks to an integrated lock. The cable guide and connected charging cable ensure tablets can be used constantly.

High-quality, anodised aluminium frame with integrated on/off switch and optional locking function.

Slim tablet frame for iPad 9.7" | iPad Mini 7.9" | iPad Pro 12.9" | Microsoft Surface Pro 4

NOVUS TabletSafe

High-quality metal frame with velour chrome surface and lacquered display screen

The metal frame and display screen in the anthracite version feature a colour coordinating lacquered finish

Lockable tablet holder for modern customer communication

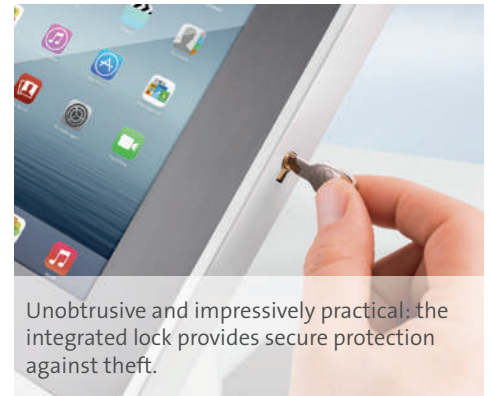

Metal clips in the housing allow exact positioning of various tablets within the frame.

The TabletSafe or connect plate is securely attached to the connect joint. Perfect cable management hides cables from view.

Control functions remain accessible by the practical apertures. If not used, they can be closed off with cover caps.

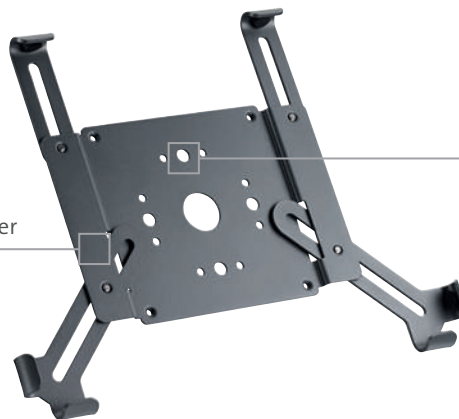

Unobtrusive and impressively practical: the integrated lock provides secure protection against theft.

NOVUS TabletFix

Universal, plain tablet holder

Suitable for mounting standard 100 x 100 and connect joint

High-quality powder coated metal finish

Universal tablet holder for use with various approximately 8"-10" tablets

Everything in view.
