

Practical & stylish | Award-winning quality | Plant-based & compostable

# MANUFACTURING THE WORLD'S BEST ECO PACKAGING SINCE 2006

Vegware is a manufacturer and visionary brand, the global specialist in plant-based compostable foodservice packaging.

# AWARD-WINNING DISPOSABLES TO MEET YOUR SUSTAINABILITY GOALS

Our plant-based catering disposables are made from renewable, lower carbon, recycled or reclaimed materials, and can all be commercially composted with food waste where accepted. And our expert environmental support can help foodservice go zero waste.

### FAST, GLOBAL GROWTH

Vegware was established in Edinburgh in 2006, and has operational bases in Huntington Beach, Sydney and Hong Kong, with distribution throughout Europe, the Middle East, South America, and the Caribbean.

We enjoy double-digit growth year on year, and we have frequently ranked as one of the UK's fastest growing businesses.

### **WE UNDERSTAND HEALTH & CARE**

Versatile, stackable and time-saving, our plant-based foodservice packaging help caterers meet the demands of a busy healthcare environment, whilst being part of a sustainable economy.

Our compostable catering disposables help you to nourish your residents, with measured portions, great insulation and products which are light to hold.

You may be switching to disposables for the first time, for hygiene reasons or to supplement reusables. Our dedicated account team can help you choose what's right for you.

## **ENVIRONMENTAL IMPACT**

Vegware is the ideal packaging partner to realise your ambitions.

Plant-based materials

Compostable products

Recycled content (Over 3,400 tonnes in 2019)

**NO** conventional plastics or blends such as PSM

NO oxo-degradable plastics

#### **BIODEGRADABLE VS COMPOSTABLE**

The term 'biodegradable' tells us nothing about where or how fast something can biodegrade. Wood is biodegradable, but a log cabin can stand for generations.

- Does it biodegrade in 200 years in the Sahara? In 1 day in the arctic?
- Example: PSM cutlery is sold as 'biodegradable' but contains 20-30% polypropylene, therefore it can only go to incineration or landfill.

If packaging can biodegrade in under 12 weeks in commercial composting, then it can be called... **COMPOSTABLE.** 

# TRIED, TESTED & TRUSTED

Our plant-based disposables can break down in under 12 weeks in commercial composting.

Vegware holds the deepest set of compostability certification in the packaging sector, and we conduct field trials to ensure our products break down in a variety of composting facilities around the world. Vegware.com/composting

#### **PAPER & CARD**

Sustainably sourced, using recycled content where we can.

#### **PLA & CPLA**

Strong & light. Plantbased. Clear PLA for cold use, CPLA for hot.

#### **NATUREFLEX**

Clear film made from wood pulp. Anti-grease, heat sealable.

#### BAGASSE

Reclaimed sugarcane. Sturdy & practical, for hot and cold use.

#### **PALM LEAF**

Fallen, pressed Areca leaves. Unique eco style.

#### INKS

Vegetable or water-based, with a great print finish.

## **HEALTH & CARE ESSENTIALS**

Our wrapped cutlery kit includes a sturdy plant-based knife, fork and spoon with a napkin.

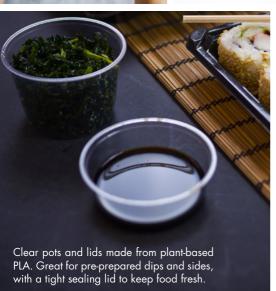

## THE VEGWARE DIFFERENCE

#### **EXTENSIVE RANGE**

350+ products More than just hot cups

#### MADE FROM PLANTS

Our products are made from plants, using renewable, recycled or reclaimed materials

#### **PERFORMANCE**

- Grease-resistant
   Leak-proof
- Food stays hot
   Snug lids

#### **EU PLASTICS DIRECTIVE**

Single use is changing - we have everything you need.

#### **COMMERCIALLY COMPOSTABLE**

Meets EN13432 industrial composting standard. Deepest set of certification in the sector

#### **FOOD SAFE**

Vegware is Certified Food Safe

#### MARKETING SUPPORT

Posters • Banners • Factsheets • Flyers• Videos • Photography

#### RECYCLING ADVICE

Our Environmental team advise clients on possible composting solutions, from waste facilities to on-site equipment
